

OXC-3830

Copy 5 of 5

9 August 1962

MEMORANDUM FOR: Chief, Contracts Division, OSA
Chief, Materiel Division, OSA

SUBJECT : Communications Equipment on 1049G -
Constellation Aircraft for OXCART Shuttle
Service

1. Some time ago I asked Kelly Johnson for a complete listing of all existing commo equipment on the second Constellation aircraft recently purchased for use in the OXCART program. Yesterday, during his visit to Headquarters, he presented me with the attached itemization of the presently installed communications equipment on N9723C.

2. I believe Contracts Division will wish to make this an attachment to the basic papers on the procurement action, and I suggest that Materiel Division make a note of this gear with a view to seeing how much of it has some military counterpart so that spare parts might be obtained as GFE instead of by contractor procurement. After Materiel has reviewed this matter, I should appreciate being told what items fall in this category.
